The detailed technical specifications of the goods to be purchased are presented in tender documentation (technical conditions).

An essential condition:

In the process of tender implementation, tender proposal security is to be employed in the form of a bank guarantee constituting 1% of tender proposal cost. Likewise, contract execution security is to be employed in the form of a bank guarantee amounting to 5% of the contract cost, both to be provided by the commercial banks.

The parties concerned must pay 200 (two hundred) GEL tender fees into the account of "Georgian State Electrosystem" Ltd.: Bank "Republic", central branch, code: 220101757, settlement account 334030001, indicating in so doing the purpose of payment along with the tender number T-0408-G-052.

The pretenders will have to present receipt for confirmation of payment at the address: Tbilisi, 2 Baratashvili st., following which they will be given tender documentation compiled in Georgian language, within the period from the day of placing the advertisement of tender to 23 June 2008, till 18.00.

The source of financing – "Georgian State Electrosystem" Ltd. funds.

The pretenders' qualification particulars and tender proposals must be submitted on 24 June 2008, from 10.00 to 15.00 (by Tbilisi time) to the address: the city of Tbilisi, 2 Baratashvili st., "Georgian State Electrosystem" Ltd., the Purchase Service, room No. 249.

Tender proposal opening will take place on 24 June 2008 at 15.00 (by Tbilisi time), with the pretenders present, at the address: the city of Tbilisi, "Georgian State Electrosystem" Ltd., head office, the third floor, assembly hall.

The qualification particulars and documentation to be submitted by the pretenders are as follows:

For legal entities:

1. An abstract from business (enterprise) register.
2. Certificate confirming the absence of attachment.
3. Information from Tax Inspection on the entity suffering no restructuring or liquidation.
4. Information from a court of law on the legal entity being involved in no litigation on the matter of bankruptcy or reorganization.
5. The pretender's requisites: (address, identifying code, phone or fax number, bank requisites).

For natural persons:

1. The pretender's personal requisite elements (a copy of identification card, contact requisites).
2. A natural person's legal capacity certificate issued by the respective authorized health facility.
3. Information from a court of law on the natural person being involved in no litigation on the matter of bankruptcy or reorganization (according to the natural person's place of residence).

The above-listed qualification particulars must be submitted either in the original or in the form of a copy authenticated by a public notary whereas the qualification particulars of a foreign juridical person or a natural person must be issued by the respective country's authorities involved and submitted by the persons mentioned above in the form of notarially attested Georgian translation.

For the commodity intended for delivery, there must be submitted a quality certificate or a factory certificate duly certified by the manufacturer.

All essential documentation must be submitted in Georgian; it can also be submitted either in English or in Russian (provided that enclosed is its Georgian translation attested notarially by the respective department. In that case, precedence will be given, in reading and interpreting the tender proposal in question, to Georgian translation). All essential documentation must be submitted in a sealed envelope, with the inscription:

the name of the pretender, to the tender commission of "Georgian State Electrosystem" Ltd., tender No. T-0408-G-052.

Should a natural or a juridical person fail to submit, within the period specified above, the above-listed qualification information in full or should any of it prove to be false or should the tender proposal not comply with the tender documentation or tender requirements included in the advertisement of tender, he will not pass the qualification selection and will be disqualified.

There only can be one winner for each lot in the tender mentioned above.

The pretender is entitled to submit only one tender proposal for each lot.

Delayed tender proposals will not be considered by the tender commission and will be returned to the respective applicants, with the envelopes intact.

The persons willing to participate in a tender are entitled to get familiarized with tender documentation at the purchasing organization.
